

Revision No:005	MATERIAL SAFTY DATA SHEET	MSDS No:002	
MARCH 2022 1. PRODUCT AND COMPA	ANY IDENTIFICATION		
Product Name Chemical Symbal CAS No EINECS No	Aluminium Powder Uncoated AL 7429-90-5 231-072-3		
Supplier Name and Address	The Arasan Aluminium Industries (P) Ltd. Post Box No-102.Chariman A. Shunmugam Road Sivakasi-626 123 Tamil NaduIndia. Phone -04562 230916. Fax - 04562 289844. Email - info@arasanaluminium.com. Web - www.arasanaluminium.com		
Trade name	STANDARD DUST		
2. COMPOSITION /INFO	RMATION ON INGREDIENTS		
NAME Aluminium	CAS No UN NO 7429-90-5 1396		
3.HAZARDS DENTIFICAT	TION		
Human health Environment	No data availableNo data available		
Physical			
If suspended in air (dust cloud cloud pose an explosion risk in), fine powder can be ignited in yhe presence of ar a confirmed environment	n ignition source and	
Chemical			
explosion risk Will react with oxidizing agent risk	may results in reaction releasing flammable hydrogor acids or alkalis, causing heat and hydrogen relectated hydrocarbons. Explosion risk		

Revision No:005	MATERIAL SAFTY DATA SHEET	MSDS No:002
MARCH 2022		

4. FIRST AID MEASURES

Inhalation: No known health risk – treat as nuisance dust

Skin contact: wash off with plenty of water

Eye contact: rinse eye with running water, obtain medical attention if symptoms persist

Ingestion: rinse out mouth and then drink copious amount of water. Do not induce vomiting. Obtain medical attention.

5. FIRE FIGHTING MEASURES

Suitable extinguishing Agents

Gently smother burning material with dry sand

Unsuitable extinguishing Agents.

- ➤ Halogenated Hydrocarbon fire extinguisher
- > Carbon-di-oxide
- > Foam
- Dry Chemical Powder
- Water

Special hazards caused by the substance, its products of combustion or resulting gases

- > Dust can combine with air to form an explosive mixture
- Contact with water releases flammable gas (hydrogen)

6.ACCIDENTAL RELEASE MEASURES

Personal precautions

- Avoid formation of dust clouds
- Keep away ignition sources

Environmental protection

Do not allow product to enter sewage system or water course (possible reaction releasing hydrogen)

Revision No:005	MATERIAL SAFTY DATA SHEET	MSDS No:002
MARCH 2022		

Measures for cleaning/collection spillage:

- ➤ Clean the material using non sparking tools (eg.Natural fiber brown). Avoid formation of dust clouds.
- > Do not flush with water.

7. HANDLING AND STORAGE

Handling

- Avoid generation of dust clouds
- ➤ Avoid source of sparks or other source of ignition
- Protect against static electricity
- ➤ Use suitable explosion proof equipment and spark –proof tools
- > Keep work area clean
- Avoid accidental contact with reactive materials- acid or chemicals-oxidiser etc
- Use non sparkling tools

Storage

- > Store in the supplied container until used
- > Keep in closed dry room or store
- > The area should be suitably marked to indicate the presence of an ignitable dust
- Avoid sparks or other source of ignition
- > Keep area clean and avoid spillage
- Do not store with reactive materials

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits

Work place

Long-term exposure (TLV) – 8 hrs TWA – 10 mg/m³

Exposure controls

Respiratory protection

A suitable face mask is recommended if regular exposure is un avowable .if work place concentration requires the use of respiratory protection – use filter types

Eye protection

Not normally required. Irritation may occurs as with any dust entering the eye – wash out immediately if it occurs.

Skin contact

Wash of with plenty of water – remove the contaminated clothing

9. PHYSICAL AND CHEMIC	CAL PROPERITY			
Physical state	: Solid			
Form	: Irregular Fine particle			
Color	: Grey			
Odour	: Odour less			
P.H	: NA			
Boling temperature	: 2467°C			
Melting temperature	: 660 °C			
Flash Point	: NA			
Auto Flammability	: Product is not self igniting			
Explosive prosperity	: Fine Aluminium powder may be			
	a dust cloud in air in the presen			
	Lower explosive limit (LEL) – 40g	gm/m³		
	01 1 (10° 0			
Minimum Ignition tempt	: Cloud 610°C			
	Layer 320°C			
Oxidizing properties	: Will react exothermically if mixed	d with a strong oxidizing		
	Substance and liquid			
Real density	: 2.7 gm/cm ³			
Solubility	: insoluble in water			
10.STABILITY AND REACT				
Stability	IVIII			
Stability Stable at room temperature				
Stable at 100111 temperature				
Reactivity				
<u> </u>	ring agents or halogenated hydrocarbo	nns		
	can cause a reaction releasing hydroc			
11.TOXICOLOGICAL INFO		Jen gus.		
Acute Toxicity	TOTAL TOTAL			
No data available				
Chromic toxicity				
No chromic effects known				
TLV – 10mg/m³ (General dus	st limit)

12.ECOLOGICAL INFORMA	TION					
Mobility /Degradability						
Will convert to Alumin	ium oxide (alu	mina) during	prolonged of	contact with water		
Ecotoxicity						
Aluminium powder is r						
Generally not hazardo						
13. DISPOSAL CONSIDER	TONS					
Waste						
Dispose of in line with regiona		J				
Avoid product entering water		system				
14.TRANSPORT INFORMA						
Transport over land ADR/RID class		- 4.3		echnical name:		
Transport oversea IMDG class		- 4.3		n Powder, Uncoated		
Transport over ICAO/IATA class		- 4.3	UN NO -1396			
Packing group		- 11	- II Ems No –F-G.S-O			
15.REGULATORY INFORM.	ATION					
Label: classification -4.1 Flar	mmable solids					
Risks						
Risk Phrase -10,15 R-10- Flammable						
	R-15-cont	ect with wat	er librates ex	xtremely flammable gas		
Safety	0 7 (0)					
Safety phrase - 1/8,43.6	Safety phrase -7/8,43.6 S-7/8-keep container tightly closed and dry S-43.6-in case of fire use sand –NEVER use water					
	5-43.6-IN (case of fire u	se sand –NE	VER use water		
16. OTHER INFORMATION						
10. OTHER HIN ORIVIATION						

The information on this data sheet represents our current data to proper use in handling of this product under normal conditions, and only as a safety guideline, not as a product specification. No warranty, either expressed or implied, is hereby made. However, each user should review these recommendations in the specific context of the intended use and determine whether they are appropriate.
