Trade name SSS R				
2. COMPOSITION /INFORMATION ON INGREDIENTS				
NAME CAS No UN NO				
Aluminium 7429-90-5 1309				
3.HAZARDS IDENTIFICATION				
Human health - No data available - No data available				
Physical				
	source and			
If suspended in air (dust cloud), fine powder can be ignited in the presence of an ignition cloud pose an explosion risk in a confirmed environment				

Revision No:006	MATERIAL SAFTY DATA SHEET	MSDS No:002
MARCH 2022		

4. FIRST AID MEASURES

Inhalation: No known health risk – treat as nuisance dust

Skin contact: wash off with plenty of water

Eye contact: rinse eye with running water, obtain medical attention if symptoms persist

Ingestion: rinse out mouth and then drink copious amount of water. Do not induce vomiting. Obtain medical attention.

5. FIRE FIGHTING MEASURES

Suitable extinguishing Agents

> Gently smother burning material with dry sand

Unsuitable extinguishing Agents.

- Carbon dioxide
- > Foam
- > Dry chemical powder
- ➤ Halogenated Hydro carbon fire extinguisher

Special hazards caused by the substance, its products of combustion or resulting gases

- > Dust can combine with air to form an explosive mixture
- Contact with water releases flammable gas (hydrogen)

6.ACCIDENTAL RELEASE MEASURES

Personal precautions

- Avoid formation of dust clouds
- Keep away ignition sources

Environmental protection

Do not allow product to enter sewage system or water course (possible reaction releasing hydrogen)

Revision No:006	MATERIAL SAFTY DATA SHEET	MSDS No:002
MARCH 2022		

Measures for cleaning/collection spillage:

- > Clean the material using non sparking tools (eg.Natural fiber brown). Avoid formation of dust clouds.
- Do not flush with water

7. HANDLING AND STORAGE

Handling

- Avoid generation of dust clouds
- Avoid source of sparks or other source of ignition
- Protect against static electricity
- ➤ Use suitable explosion proof equipment and spark –proof tools
- Keep work area clean
- Avoid accidental contact with reactive materials- acid or chemicals-oxidiser etc
- Use non sparkling tools

Storage

- Store in the supplied container until used.
- > Keep in closed dry room or store
- > The area should be suitably marked to indicate the presence of an ignitable dust
- Avoid sparks or other source of ignition
- Keep area clean and avoid spillage
- Do not store with reactive materials

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure limits

Work place

Long-term exposure (TLV) – 8 hrs TWA – 10 mg/m³

Exposure controls

Respiratory protection

A suitable face mask is recommended if regular exposure is un avowable .if work place concentration requires the use of respiratory protection – use filter types

Eye protection

Not normally required. Irritation may occurs as with any dust entering the eye – wash out immediately if it occurs.

Skin contact

Wash of with plenty of water – remove the contaminated clothing

Revision No:006 MARCH 2022	MATERIAL SAFTY DATA SHEET MSDS No:002						
9. PHYSICAL AND CHEMICAL PROPERITY							
Physical state : Solid							
Form	: Flakey particle						
Color	: Grey						
Odour	: odour less						
P.H	: NA						
Boling temperature	: 2467°C						
Melting temperature	: 660 °C						
Flash Point	: NA						
Auto Flammability	: Product is not self igniting						
Explosive prosperity	: Fine Aluminium powder may be explosive if disperse into						
	a dust cloud in air in the presen	<u>o</u>					
	Lower explosive limit (LEL) – 400	gm/m ³					
Minimum Ignition tempt	: Cloud 610°C						
3	Layer 320°C						
Oxidizing properties	: Will react exothermically if mixed	d with a strong oxidizing					
	Substance and liquid						
Real density	: 2.7 gm/cm ³			· · · · · · · · · · · · · · · · · · ·			
Solubility	: insoluble in water and organic solvent						
10.STABILITY AND REACTIVITY							
Stability							
Stable when dry. No decomp	osition						
Reactivity							
May react with acids or oxidizing agents or halogenated hydrocarbons							
Dralanged contact with water can cause a reaction releasing hydrogen gas							
Prolonged contact with water can cause a reaction releasing hydrogen gas. 11.TOXICOLOGICAL INFORMATION							
Acute Toxicity							
No data available							
Chromic toxicity							
No chromic effects known							
TLV – 10mg/m³ (General dus	t limit)

MARCH 2022					
12.ECOLOGICAL INFORMA	ATION				
Mobility / Degradability					
Will convert to Alumin	ium oxide (alu	mina) during	prolonged of	contact with water	
Ecotoxicity					
Aluminium powder is					
Generally not hazardo					
13. DISPOSAL CONSIDER	ITONS				
Waste:					
Dispose of in line with regional or national regulations.					
Avoid product entering water		system			
14.TRANSPORT INFORMA			0 11		
Transport over land ADR/RID		- 4.1		chnical name: aluminium	
Transport oversea IMDG class		- 4.1	Powder. c		
Transport over ICAO/IATA class - 4.1			UN No – 1309
